PRO MX Reactive Dye

for room temperature dyeing on cotton, rayon, linen, ramie, tencel & silk.

% OWG = amount of dye needed based on the weight of goods
0.5% OWG = Approximately ¾ level teaspoon per pound of goods
1.0% OWG = Approximately 1½ level teaspoons per pound of goods
2.0% OWG = Approximately 3 level teaspoons per pound of goods
3.0% OWG = Approximately 4½ level teaspoons per pound of goods
4.0% OWG = Approximately 6 level teaspoons per pound of goods
6.0% OWG = Approximately 9 level teaspoons per pound of goods
8.0% OWG = Approximately 12 level teaspoons per pound of goods
10.0% OWG = Approximately 15 level teaspoons per pound of goods

*For best results, dye these colors at 125°F (52°C)
These printed colors are representative of the actual dye. Please test colors before beginning a project requiring an exact color match.
